## CERTIFICATIONS & AFFILIATIONS

The Forest Stewardship Council® was created to change the dialogue about and the practice of sustainable forestry worldwide. This impressive goal has in many ways been achieved, yet there is more work to be done. FSC® sets forth principles, criteria, and standards that span economic, social, and environmental concerns. The FSC® standards represent the world's strongest system for guiding forest management toward sustainable outcomes. Ask about our FSC® availability.

The Sustainable Forestry Initiative® is a comprehensive, independent certification program that works with environmental, social and industry partners to improve forest practices in North America and fiber sourcing worldwide.

The PEFC™ Council (Programme for the Endorsement of Forest Certification) is an independent, non-profit, non-governmental organization, founded in 1999 which promotes sustainability managed forests through independent third party certification. The PEFC provides an assurance mechanism to purchasers of wood and paper products that they are promoting the sustainable management of forests.

ISO is a network of the national standards institutes of 157 countries, one member per country, with a Central Secretariat in Geneva, Switzerland, that coordinates the system. ISO is a non-governmental organization that forms a bridge between the public and private sectors. Therefore, ISO enables a consensus to be reached on solutions that meet both the requirements of business and the broader needs of society.

AIB International is committed to protecting the safety of the food supply chain and delivering high value technical and educational programs. Through rigorous independent inspections, superior audits and training, and shared expertise we will empower our clients to lower their business risk and strengthen their reputations.

Silliker is the leading internationally accredited provider of food safety, quality and nutrition services with locations in 16 countries. Silliker championed quality systems and results that are documentable and reproducible. They are headquartered in Chicago, Illinois-USA and aligned with ISO 9001. Silliker is recognized worldwide.

Clearly the substrate, gamut and other print characteristics will vary for the different print products. But if all the print products have the same gray balance and neutral tonality defined by G7®, they will look remarkably alike to the human eye. Because buyers believe the similarity of the visual appearance across print products is critical, they now make G7® a buying requirement.

Proud Member Of

PPC has grown to become the leading trade association serving suppliers and converters of all forms of paperboard packaging. Its guiding principles have always been—and continue to be—to grow, promote, and protect the paperboard packaging industry while providing its members with resources and tools to compete effectively and successfully in the marketplace.
