

CERTIFICATIONS & AFFILIATIONS

The Forest Stewardship Council® was created to change the dialogue about and the practice of sustainable forestry worldwide. This impressive goal has in many ways been achieved, yet there is more work to be done. FSC® sets forth principles, criteria, and standards that span economic, social, and environmental concerns. The FSC® standards represent the world's strongest system for guiding forest management toward sustainable outcomes. Ask about our FSC® availability.

ISO is a network of the national standards institutes of 157 countries, one member per country, with a Central Secretariat in Geneva, Switzerland, that coordinates the system. ISO is a non-governmental organization that forms a bridge between the public and private sectors. Therefore, ISO enables a consensus to be reached on solutions that meet both the requirements of business and the broader needs of society.

Clearly the substrate, gamut and other print characteristics will vary for the different print products. But if all the print products have the same gray balance and neutral tonality defined by G7®, they will look remarkably alike to the human eye. Because buyers believe the similarity of the visual appearance across print products is critical, they now make G7® a buying requirement.

Proud Member Of

PPC has grown to become the leading trade association serving suppliers and converters of all forms of paperboard packaging. Its guiding principles have always been—and continue to be—to grow, promote, and protect the paperboard packaging industry while providing its members with resources and tools to compete effectively and successfully in the marketplace.
